

CHANGE IN FILE STATUS
APPROVAL FORM

DATE January 7, 1987

CURRENT FILE NO. ACT/001/001

RECOMMENDED FILE NO. DOE/001/014

COMPANY AND MINE NAME Delano Development Corp., Sulfurdale

REASON FOR CHANGE IN FILE STATUS

The previous operator stockpiled several thousand tons of mined sulphur in 1977 and the stockpile has not been depleted completely to date. A March, 1979 MR-1 application was never reviewed by the Division and it does not appear that any mining has taken place since 1977. A March, 1985 field visit recommended that the operation be classified as a DOE (see attached memo).

The operation discharges low PH water into a nearby stream during the spring. The Department of Health is aware of the unauthorized discharge and is currently monitoring the situation.
